It is the invention of Dr. Steinheil, professor of natural ilosophy at the university of Munich well known in the scientific world for having laid down the first electric telegraph after the discovery of the princi-ple by Professors Gauss and Weber. The first specimen of his gun Steinhell submitted to the inspection of the Bavarian war office as early as 1832. Sixteen years later he produced another and heavier machine of the same sort, throw-

giving up the petty opposition she has so long offered to this government, has adopted the Prussian needle-gun.

the clitter of a State over adligations.

When I success that it that for clitter of a State over adligations.

When I success that it that formed the success that it is success to a success, and that the court of the success that it is success to a success, and that the success that it is success to a success, and that the success that it is success to a success, and that the success that it is success to a success, and that the success that it is success to a success, and that the success that it is success to a success, and that the late war? Is there no other test of the success the interval in the success the success that it is success to a success, and that the success the success that it is success to a success, and that the success that it is success to a success, and that the success the success that it is success to a success, and that the success to a success, and that the success to a success, and the success to a succe
